CITY TO VOTE ON RECALL OF MAYOR JUNE 21

CITY COUNCIL ACCEPTS PETITION MONDAY EVENING

870 SO CALLED ELIGIBLE NAMES
REPORTED BY THE
CITY CLERK

EIGHT ALDERMEN VOTE IN
FAVOR OF THE ACCEPT-
ANCE OF PETITION

With 870 eligible names on the recall petition of Mayor George A. Cain as submitted by Mrs. E. T. Fleener, city clerk, the city council took action on the recall last night by placing the date of the mayoralty election on June 21, the day of the primary election.

Those who voted in favor of the recall were: Aldermen W. J. Lyons, V. E. Quamstrom, C. H. Elvig, W. E. Lewis, V. F. Anderson, Andrew Wesley, Ernest Ritari, R. H. Paine. Alderman Martin Anderson voted no and Alderman C. G. Holmstrom asked to be excused from voting.

About 150 citizens were in attendance at the meeting. City Attorney D. H. Fullerton was asked to read the petition.

"The charter," he stated "provides that the city clerk within ten days of the filing of a petition asking for the recall of the mayor must compare the list with the poll list at the last municipal election and certify that the names on the petition are eligible voters. Mrs. Fleener has examined the lists and found that 870 eligible voters were listed on the petition. There were 3,317 votes cast at the preceding election. Section 28 of the city charter calls for a recall, section 20 B. for the petition itself and the 25 percent of voters required to sign a petition to give the petition legs to stand on. The number of eligible voters required is 830. The charter also states that the council must set a date for the election not less than 30 days not more than 40 days from the time presented to the council. Section 20 E. provides that the present mayor be a candidate, unless he signifies his intention of not being one, and, other candidates, to be nominated as in any other regular election."

"I would like to ask the city attorney if the council are to decide on whether the charges in the petition against the mayor are true," asked Alderman Martin Anderson.

"The council are not required to pass on the merits of the petition," replied City Attorney Fullerton.

"According to my idea of reading the city charter," said Alderman Anderson, "this council should act like a jury and pass on whether the charges in the petition against the mayor are true or not."

"The charter provides that the body of the petition for recall be printed in the daily newspaper and also a statement from the mayor," explained Mr. Fullerton.

Martin Anderson—"I want to know if there are any members of the council who signed the petition, Mrs. Fleener."

Mrs. Fleener—"There are some 1,200 names. I can't tell."

Mayor Cain—"I believe that Alderman Paine signed it."

Martin Anderson—"I believe that anyone on the city council who signed the petition should not be allowed to vote on this question in the city council. I also want to know if petitions are legal if they were signed on Sunday. I don't know how many there were who signed on Sunday but I do know that there were some. There are ways that the mayor could put an injunction against the council to stop this."

Alderman Paine spoke up—"I signed the petition."

City Attorney Fullerton—"I don't think that the signing of the petition disqualifies an alderman from acting in the matter." I would like to make it plain through the press that this city council does not pass on the merits of the alleged statements contained in the petition but that they are required by the charter to set a date for the election."

When the motion was put before the council, the date for the election was set for June 21.

After a few minutes consideration by the mayor, Mayor Cain refused to sign the resolution calling for the election, on the grounds not from a legal standpoint from which point he was willing to sign, but in the event of his signing it would appear that he was favoring the recall.

Another motion was put, this time the council taking the matter on their own shoulders, setting the date for the election on June 21. The vote was the same as previously.

Argument Over Graft Check
Alderman Paine—"I understand that Mayor Cain has refused to sign

Farm Relief Forces to Soon Measure Strength

SILOS REGARDED AS SUSPICIOUS BY DRY AGENTS

St. Paul, May 18.—(UP)—Now silos have been placed on the suspicious list by federal prohibition agents.

Agents raided a farm near Lake Elmo and discovered that a 3,600 gallon silo had been converted into a fermenter and was hissing with the sound of mash that was ripe for distilling.

It was the first time prohibition agents had found a silo put to that purpose.

RUSSELL SCOTT FACES GALLOWS FOURTH TIME

THREE ALIENISTS SUMMONED TO
CONDUCT SANITY
HEARING

INVESTIGATIONS AFFIRM THE
CHARGE THAT SCOTT IS
SANE AGAIN

Chester, Ill., May 18.—(UP)—Russell Scott today is faced with the gallows for the fourth time. Three alienists—Dr. Herman Adler, Dr. Ralph Hinton and Dr. Frank A. Stubbelfield—gathered in the Chester state hospital to conduct a sanity hearing for the former Canadian millionaire who was convicted of murdering Joseph Maurer in a Chicago drug store holdup.

The investigation today was brought about by charges that Scott had recovered his sanity after being sent here several months ago.

The former Canadian millionaire was convicted in Chicago of slaying the young drug store clerk in a bold holdup. Despite charges that his brother, Robert, did the shooting, Scott was convicted and sentenced to hang.

Three times death dates were set, but each time a last minute reprieve was granted. The last time a sanity commission found Scott was insane.

Since then charges have been made that Scott has recovered his sanity, is normal, therefore should pay with his life for killing Maurer.

Erick Graff's check. I want to know why he refused to sign it."

Mayor George A. Cain—"I refused to sign the check because it was stated on the check, fire inspector and watchman. If the council will change the wording to fire inspection I would be glad to sign the check. I have the right to appoint watchmen for the city and I certainly did not appoint Graff."

City Attorney Fullerton—"It is the duty of the council to pass on the bill. The mayor under the charter is required to sign any bond or warrant authorized by the council."

Alderman Anderson—"I want this matter referred to the city attorney who in turn will submit the matter to the attorney general for a ruling."

The motion was lost that a ruling be asked of the attorney general regarding the Graff situation. Aldermen Lyons, Quamstrom, Elvig, Wesley, Ritari, and Paine voted against it and Aldermen Lewis, Anderson, Martin Anderson and Holmstrom in favor of it.

Martin Anderson—"The council has refused the right of one of its members to ask for legal advice as coming from the council through the city attorney. I have asked for records from the city clerk and I have been turned down."

City Attorney Fullerton—"Each individual member has the right to ask me for legal opinion. I'd be glad to get the ruling from the attorney general on any matter. I ask though that request for legal opinion be turned in to me in writing and I will reply in writing. I have found that requests for legal opinion verbally in the past has not been the best method."

Martin Anderson—"I'll get the opinion of the attorney general from him myself. You can't turn me down on that."

Martin Anderson as chairman of the finance committee refused to sign the bill of Erick Graff for a gun and cartridges, stating that Graff had no right to carry a gun.

On the refusal of Martin Anderson to sign the payroll of the city with Erick Graff's name included, the city council went over his head, authorizing the payment of the salaries.

HAZE OF MANY FOREST FIRES IN NORTH STATE

SOME THREATENED DESTRUCTION TO SMALL
TOWNS

GREATEST ENEMY TO SAFETY.
THE WIND, HAS
ABATED

Duluth, May 18.—(UP)—The north woods of Minnesota were dark today with the haze of countless forest fires, some of which threatened destruction to a number of towns.

Anxious rangers were cheered early today by the sight of the vast clouds of smoke from the forest drifting straight upward, evidence that the greatest enemy to safety, a wind, was absent.

However, the woods continued in a dangerous condition. No rain was promised and the dry, inflammable brush and timber threatened to continue to flame along a dozen fronts. A number of settlements were in the direct path of the fires.

Along the shores of Lake Superior were burning the most serious fires. One of them has attacked the town of Cramer on a three mile front, burning the Cramer town hall and other buildings.

South of Cramer the towns of Finland and Beaver Bay anxiously awaited the events of the day for the flames are creeping in their direction.

Between 50 and 60 fires, most of them under control, were raging this morning.

1,800 MEN
FIGHTING FIRES

St. Paul, May 18.—With 1,800 men fighting forest fires which are sweeping the woods of northern Minnesota, the state executive council today voted an additional appropriation of \$15,000 to combat the situation.

The high wind that fed the flames Monday has abated and a better control of the fires is anticipated, according to reports to the state forestry service. However, humidity is dangerously low and rain is sorely needed in the stricken districts.

Thus far, the most serious damage by the flames has been at Cramer, in Lake county. There the town hall, a lumber mill and other buildings were destroyed when the fire invaded the town. The terrified population was driven into open country, but the fire's advance was checked.

Fires of serious proportions are reported north of Cloquet, near Hibbing, south of Moose Lake, near Park Rapids, Brainerd, Bemidji, south of Warroad, east of Duluth and along the north shore of Lake Superior.

Fire fighters deserted all manner of employment to join in the battle against the common enemy. In many districts, rural schools have been suspended. Older pupils are helping the volunteers.

WARROAD REPORTS
TREMENDOUS FIRES

Warroad, Minn., May 18.—Additional volunteers were pressed into service here today to combat a forest fire of tremendous proportions which is sweeping southward from Manitoba and has crossed the Canadian boundary.

The fire is fifteen miles north of Warroad and is moving with express speed, threatening to reach this town unless it is stopped.

Back of the fire, a heavy wind is rising, increasing the danger of the situation.

SEEKS TO BETTER
CONDITION OF
LABORING MAN

Minneapolis, May 18.—(UP)—The American Federation of Labor seeks to better the conditions of the laboring man through higher wages, shorter hours and the abolition of child labor, President William Green told his audience last night in his farewell address here.

"The purchasing power of labor's wages must be maintained at a sufficiently high level to allow the workman to buy back what he produces if the present stability of industry is to continue," Green said.

"The American Federation of Labor is unalterably dedicated to the policy of high and higher wages, and it will oppose any attempts to reduce wages," Green concluded.

JOHN L. MORRISON, RIP SAW EDITOR, DIED AT SUPERIOR

Superior, Wis., May 18.—(UP)—John L. Morrison, publisher of the Duluth Rip Saw, a bi-weekly newspaper, died at 11 a. m. today at St. Francis hospital.

The death was caused by a blood clot on his brain.

Two lawsuits were pending against Morrison as a result of publication of his newspaper. One was brought by Mayor George E. Leach of Minneapolis, candidate for the republican nomination for governor, under a Minneapolis ordinance forbidding sale of objectionable literature on streets. Suit for an injunction to suppress sale of the newspaper was instituted by W. Harlow Tischer, a city commissioner of Duluth.

Morrison had been granted a continuance of the Tischer injunction again to Friday because of illness. The warrant in Leach's suit, however, had not been served. Both actions were directed against the newspaper for alleged publication of scandalous articles.

NEW GOFF DRY BILL FOR PASSAGE

SENATE MAY PASS SAME IF NO
FILIBUSTERING DE-
VELOPS

THE MEASURE IS DESIGNED TO
STRENGTHEN HAND OF LIN-
COLN ANDREWS

By JULIAN SNYDER
(United Press Staff Correspondent)

Washington, May 18.—Unless unforeseen filibustering develops, the senate will pass before adjournment the new Goff dry bill, designed to strengthen the hand of Lincoln Andrews, prohibition administrator.

Dry indicated today it would have their united support, and from the wets came one voice in support, that of Senator Bruce, democrat, Maryland.

As long as the dry laws remain a part of the constitution, Bruce believes he must support all reasonable measures to enforce them and thus encouraged the Goff measure.

"Much as I prefer modification to permit sale of liquor under a system similar to that prevailing in Canada, I feel compelled to vote for the Goff bill," he said.

He said the Goff measure in failing to provide penalties for the home brewer constituted a humble admission by the government that enforcement in the homes is impossible. The effect would be wholesale drinking in the homes, he said.

The other wets, however, will fight the bill.

The other wets, however, will fight the bill.

NO LAND AT POLE, SAID THE NORGE EXPLORERS

DENY REPORTS THAT "ROCKY
ISLANDS" WERE
SEEN

STATEMENT SO CARRIED BY A
RIVAL PRESS BU-
REAU

Nome, May 18.—(UP)—The Amundsen-Ellsworth expedition found no land at the north pole, members of the party reiterated today, denying reports circulated in the "states" that "rocky islands" were seen at the pole.

The reports, carried by a press association, other than the United Press, was credited to Lincoln Ellsworth, who, today, emphatically denied to the United Press that he had made any such statement. Captain Wisting and Lieutenant Omdahl supported Ellsworth in his declaration.

"We were flying low at about 600 feet elevation, when we crossed the pole," Ellsworth said, "and if there had been any land there we would have seen it. However, we did not see anything but ice and patches of open water."

PILSUDSKI'S FORCES RAID A WARSAW BANK

SEIZED FUNDS TO BE USED AS
PAYROLL FOR HIS
TROOPS

TOOK SEVERAL MILLION ZLOTY,
EACH WORTH ABOUT
9 CENTS

Warsaw, May 18.—(UP)—Forces of Gen. Pilsudski, leader of the successful Polish revolution today raided the Bank Polski, a banking institution here and seized several million zloty to be used in paying the revolutionary troops.

A Polish zloty is worth nine cents in American money at current rates of exchange.

Warsaw, May 18.—Marshal Pilsudski who last week headed the revolution which overthrew the existing Polish government, has been taken seriously ill, according to an official announcement.

He was unable to attend today's meeting of the new cabinet, which was set up following the revolution he led and in which he held the portfolio of war minister.

Posen, May 18.—An unconfirmed report was circulated here that General Stanislaw Haller, supporter of the defunct Witos government of Poland, has proclaimed a counter revolutionary government.

This government, it is said, included General Plocinski and M. Paszkowski.

It was reported also that Haller's troops and the forces of Marshal Pilsudski, who now occupies Warsaw, after his victorious revolt, are on the point of making contact and that a grave battle is imminent.

ARRAIGNMENT OF DAUGHERTY IS POSTPONED

New York, May 18.—(UP)—Arraignment of Harry M. Daugherty, former attorney general, and Thomas W. Miller, former alien property custodian, indicted here for conspiracy to defraud the government, was postponed on account of the illness of Miller.

Miller's illness provided a peculiar coincidence following, as it did, the death of John T. King, of Connecticut, who died last week, a few days after he had been indicted with Miller and Daugherty.

Miller is at his home in Wilmington, Del., where it was said he is suffering from an infection in one leg, the result of a fall.

He recently was in a hospital at Philadelphia for treatment.

"There really is no great hurry about arraigning these defendants," Kenneth F. Simpson, special assistant United States attorney in charge of the prosecution, said.

It was announced that if Miller is still ill to be arraigned on Thursday arguments will be heard on that day on certain legal points in connection with the case.

'REAL' NONPARTISAN LEAGUE CONVENTION

Grand Forks, N. D., May 18.—(UP)—The "real" Nonpartisan league convention which had been summoned to meet in Grand Forks Wednesday to select a second slate of Nonpartisan league candidates on the republican ticket may not be held.

H. H. Aaker, prominent Nonpartisan league leader whose name was signed to a call for the convention issued a week ago, declared today that he was not responsible for its being summoned.

Aaker said his name was signed to the call without his consent and urged his friends not to attend the meeting here.

HIGHWAY HEADS IN CONFERENCE

Hudson, Wis., May 18.—(UP)—Highway commissioners of Minnesota and Wisconsin were in joint private session here today attempting to reach an agreement on plans for two new interstate bridges. The bridges which it is hoped will become free interstate structures are at Hudson, Wis., and Stillwater, Minn.

AMERICAN PLAN TO REDUCE THE LAND ARMAMENTS

By HENRY WOOD
United Press Staff Correspondent
Geneva, May 18.—The American government is convinced that reduction of land armaments can be best attained by regional agreements, Hugh Gibson, American representative at the meeting of the commission making preliminary arrangements for the proposed League of Nations disarmament conference announced today.

He made the declaration in an address at the opening session of the preliminary conference.

PENNSYLVANIA POLLS GUARDED BY DETECTIVES

TO RECEIVE VERDICT OF ELEC-
TORATE ON BEER AND
LIGHT WINES

ADMINISTRATION OF PRESIDENT
COOLIDGE ALSO UNDER
FIRE

By PAUL R. MALLON
(United Press Staff Correspondent)

Philadelphia, May 18.—Guarded by women and special detectives, Pennsylvania polls were thrown open at 7 A. M. today to receive the verdict of the electorate on beer and light wines and the national Coolidge administration.

Calm mid-May skies indicated that perhaps 1,400,000 votes, as many as were cast in this state in the last presidential election, would be dropped into the ballot boxes as a result of the campaign in which millions were spent.

The women and detectives were selected at the expense of George Wharton Pepper, administration incumbent; William S. Vare, wet, and Governor Gifford Pinchot, driest of the dries, to see that no more votes are counted than cast, particularly in Philadelphia, which, citizens say here, has a disputed reputation in that respect.

The three are running for the republican senatorial nomination in what newspapers this morning warned the voters was "the greatest political battle in the history of the Keystone state," which has seen many political battles during and before Boies Penrose's days.

MINING COMPANIES ASKING FOR REDUCED TAXATION FIGURES

St. Paul, May 18.—(UP)—The appeals of northern Minnesota mining companies for reduced 1925 assessments are being heard today by the state tax commission which has before it the cases of the Clement K. Quinn company, the United Mining company, the Picands-Mather company and others.

PASSENGERS TELL OF SEA DISASTER

CLYDE LINE STEAMER SPRINGS
LEAK OFF HOLLYWOOD,
FLORIDA

New York, May 18.—(UP)—Passengers from the Clyde line steamer Seneca, taken off the vessel Sunday by coast guard cutters when the ship was found to be leaking badly, 16 miles off Hollywood, Florida, arrived here today with varying tales of the disaster.

The scores who reached here were greeted by friends and relatives who had waited anxiously for news of their safety.

A statement signed by six survivors said some of the ship's crew were under the influence of liquor and that the men were taken ashore on large tug boats while many ladies were forced to use small life boats. The signed document also said liquor was sold openly on the vessel.

Arthur W. Pye, passenger traffic manager of the Clyde Steamship Co., was emphatic in his reply: "I can officially say there is no truth to the statement made by a very, very small minority of the passengers who arrived here this morning."

VOTE ON AN AMENDMENT TO HAUGEN BILL

SUPPORTERS HOPE TO TACK ON
SECTION TO THE HAUGEN
MEASURE

THE ADMINISTRATION LEADERS
CLAIM SUFFICIENT VOTES
TO BEAT MOVE

Washington, May 18.—(UP)—Opposing forces on farm relief legislation in the house will be given the first indication today of the extent of their strength.

The vote on an amendment to the Haugen stabilization bill, making the equalization fee co-operative immediately on all basic commodities except cotton, will give both sides an idea of the drift of sentiment in the house. Supporters of the Haugen bill hope to put the amendment over while administration leaders, backing the Tischer credit bill, claim sufficient votes to beat it.

Representative Dickinson, republican, Iowa, one of the farm leaders, does not believe the ballot should be taken as a test vote on the Haugen bill. Many democrats who will vote against final passage of the bill, he said, will vote for amendment for political reasons. Dickinson also pointed out that the administration forces would not have their full strength present, because of the Pennsylvania primaries.

The first real test vote on the Haugen bill will come Thursday, when its supporters expect the administration group to attempt to eliminate the \$375,000,000 revolving fund provision. Before the vote comes, however, the Haugen group will attempt to reduce the fund to \$175,000,000.

Both sides expect to reach a final vote late Thursday night or some time Friday.

2 TO BE GIVEN LETHAL GAS IN EXECUTION

Carson City, Utah, May 18.—(UP)—Two men wait in the death cell of the Nevada state prison today for enactment of their death sentence by lethal gas Friday.

They have one appeal, before the pardon board Thursday.

The two men being held are John Randolph and Stanko Jukich. Randolph, drunk, beat his mother to death, because she refused him money. Jukich killed his 16 year old sweetheart, because she would not marry him.

Friday's executions will be the second time Nevada has made use of lethal gas. A Chinese died three years ago in the same manner. Murderers since then have drawn life sentences, many Nevadans deploring the gas method of execution.

The death chamber stands alone in the center of the yard. On one side is a glass panel, through which official spectators witness the execution. Within Randolph and Jukich will be strapped to iron bars and the hydrocyanic gas turned on. One breath of it will cause instant death.

Then the gas is turned off and the doors opened. The dead men will hang by their straps until the room is cleared sufficiently to permit their being cut down with safety.

TO EXCLUDE REPORTERS FROM DIVORCE TRIAL

Madison, Wis., May 18.—(UP)—newspaper representatives, as well as the general public, may be excluded from the Frank Lloyd Wright divorce trial, the United Press learned today. It has already been agreed by attorneys for both sides and Judge A. C. Hoppmann that court fans will be barred and the trial judge is considering exclusion of reporters.

Under Wisconsin statutes, the judge has a right to keep proceedings secret. Attorneys for both sides have made a strenuous effort to keep the case free from sensation.

Counter claims made by Marian Noel Wright to the suit brought by the famous architect, however, give promise of sensational testimony. The trial is to start in circuit court here Thursday.

SCOUT TROOP WAS ENTERTAINED

No. 1 of Brainerd Motored to Merrifield on Monday Evening

20 SCOUTS IN PARTY

In Baseball Game the Aces Downed Scouts 11 to 3

The entertainment provided by the scouts of Troop No. 1 of Brainerd who motored to Merrifield Monday evening will be remembered for a long time by the scouts. The 20 scouts left the First M. E. church at 5:45 p. m.

The first part of the evening was spent in baseball, in which the "Aces" downed the Scouts to a count of 11 to 3. The Merrifield "Aces" were short several players so sufficient material was drafted from the troop to form a full lineup. There was a good attendance of rooters.

After the baseball game Troop No. 1 joined in with the Merrifield boys in a "camp fire" on the shores of Silver Lake. The Scouts entertained with scout songs, and demonstrated various scout activities around the camp fire. As the evening drew to a close all present at the camp fire were filled to the brim with "hot dogs" and parkerhouse rolls, and Eskimo pies. The troop arrived home a bit later than their schedule had planned, due to a good turn performed on the road by helping a car in distress.

Troop No. 1 meets at the First M. E. church every Monday evening at 7:15 o'clock. Lawrence Ericsson is scoutmaster of this troop, and claims to have one of the liveliest group of boys in the city.

Troop No. 1 has planned to have a cabin of their own at Scout Camp this summer which officially opens on June 14.

St. Francis Guild

The St. Francis Guild will meet Wednesday at 2:30 p. m. in the church hall. A large attendance is requested. Visitors are always welcome. The ladies entertaining are Mesdames J. S. Walsh, Joe Weber, M. O. Weber, Dean White, J. H. Witham, C. H. Witham, H. Wood, and Bert O'Brien.

Rogers-Hoff

The wedding took place Saturday afternoon at 3 o'clock of Emma Helen Hoff and William Rogers, both of Brainerd. Rev. J. R. Michaelson, Lutheran pastor, officiating. The attendants were Florence J. Bubar and Thomas L. Nolan.

The groom is employed at the N. P. shops. The newly married couple will make their home in Brainerd.

Missionary Circle

The Missionary Circle of the First Baptist church will meet at the home of Mrs. Henry Olson, 811 Fir street, Wednesday afternoon at 3 o'clock. Come and bring a friend.

Pythian Sisters

The Pythian Sisters will have a card party and a general good time after the K. P. meeting, Wednesday, May 19. It is hoped there will be a large attendance of Knight and families, as well as the Pythian sisters, as this will be the last social gathering of the spring.

Old English Official

The sumner was a medieval English functionary of some importance. His duty was to summon persons accused of certain misdemeanors before the ecclesiastical court. Chaucer introduces a sumner into his writings.

MRS. PAUL PEPIN DIED

Succumbed to Complications at Age of 73; Funeral to Be Held Thursday

Mrs. Olive Pepin, wife of Paul Pepin, of 923 South 6th street, died today of complications at the age of 73 years. Deceased was born in Canada, January 14, 1853, and came to the United States and Brainerd 42 years ago. Besides her husband she is survived by a son, Paul, Jr., of Tensed, Idaho.

The funeral will be held from the home Thursday morning at 8 o'clock and at 8:20 from the St. Francis Catholic church. Interment will be made in Evergreen cemetery.

SUES FOR AN ALLEGED DELAY

Statement So Alleged in Court by Plaintiff in Western Union Case

CHARGES \$10,000 LOSS

Claims That Florida Realty Deal Alleged Checked by Delay

More interest is being taken by citizens and other interested in legal proceedings in the jury trial today in the district court of Clement H. Ellis vs. the Western Union Telegraph Company, a corporation, Manuel LeFleur, and C. E. McIntyre than of any trial yet appearing on the court calendar.

Students in a body from the Civics class of the Brainerd high school, and also a class from the Brainerd Commercial College and interested citizens packed the court room to capacity.

The case is that of a delay in the delivery of a telegram to Ellis which resulted in what he claims as \$10,000 loss to him, for which he claims damages, when he failed to receive the telegram on time as to the date when an option on land he held, expired. The case revolves around a land deal in Florida.

Ryan, Ryan, and Ryan, are appearing for Ellis and C. M. Ferguson, and Elliot, Doll and Coursolle, well known law firm throughout the United States with offices at Minneapolis, for the telegraph company.

A verdict for the plaintiff for the full amount of \$456 was awarded to A. L. Koop in the case of A. L. Koop vs. Christ Kolios for commission on fire adjustment of the store of Kolios Wieland and Sullivan appeared for Koop and Ryan, Ryan, and Ryan, for Kolios.

"Busted"

Sometimes a girl's ideal is shattered, but oftener he is just plain broke.—Florence Herald.

HAD MONTH'S TOUR IN WEST

Mr. and Mrs. John Munster Visited Three Coast States

WASHINGTON, OREGON, CALIF.

Met or Visited Many Brainerd People During Their Journey

Mr. and Mrs. John Munster of 701 South Broadway returned Saturday from a month's tour of the west which took them through the coast states, Washington, Oregon and California.

Leaving Brainerd, April 16th, their first stop was at Spokane, Wash., where they visited with former Brainerd residents including Mr. and Mrs. Schilling (Mrs. Schilling is a daughter of Mrs. August Butka) and Mrs. Keller and family who formerly resided on South Broadway.

The next city to be visited was Tacoma where they stayed with the Luepke family, also former Brainerd residents. In Portland, Ore., they stayed with Mrs. Wolf, nee Mable Schilling. In San Bernardino, Calif., they were the guests of C. G. Waffle, who is now employed in the San Bernardino Polytechnic high school and who formerly resided on South 7th street. The B. Anthon family was also visited as was John Giles, formerly of South 8th street. Mr. Giles will be remembered as a former deputy sheriff and as the chief of police of the local force.

They chose to travel the so-called ocean route, which enabled them to see all the exceptional and noteworthy sights en route, the special train making a distance of not more than sixty miles a day.

They were very high in their praise of the west, its gorgeous scenery, wonderful homes and structures, its ideal climate, its wonderful vineyards, orchards, etc. "Mere words cannot describe them," said Mr. Munster.

They brought back many souvenirs and specimen of the fruits that abound, among them being oranges that weight 17 ounces and lemons that are as large as ostrich eggs.

Young America

Little Mabel came home from school with a report which showed that she was excellent in all her studies but that she was very poor in deportment. Her mother quizzed her to find out what was wrong. At last little Mabel blurted out: "All I did was to stand on my head with my feet against the wall, to prove I could do it."—Troveur de Sentiers.

WOMAN BALKED AT PAYING \$10 FISH LAW FINE

St. Paul, May 18.—(UP)—A woman who balked at paying a \$10 fine for violating the state fish laws is serving a 30-day jail sentence.

The woman is Mrs. Nels Fahlin, of Farwell, who was sentenced there for having fish in her possession during a closed season. Her imprisonment was reported today to State Game and Fish Commissioner J. F. Gould.

J. O. Watterson, deputy game warden, who made the arrest, said that while he was at the Fahlin farm, a rock was hurled through the windshield of his automobile.

Famous "Greek Fire"

The fire invented and used by Calimachus in 688 A. D. to destroy the ships of the invading Saracens was composed of naphtha or liquid bitumen mixed with sulphur and pitch procured from green fir trees. Water, instead of extinguishing, quickened this agent, which the Greeks controlled with sand, wine and vinegar. The secret was maintained by the Greeks for 400 years.

No Longer Rainless Land

Formerly Egypt was practically rainless. Now, owing to irrigation and consequent increase of vegetation, there are about eighteen days' heavy rain yearly in the Nile delta.

Ink Blots for Mind Tests

Ink blots will tell more about your personality in ten minutes than hours of analysis, according to a professor of Northwestern university.

You can test yourself with a sheet of paper and splashes of red, green or black ink. Ask yourself what you see in them. If they appear merely as blots you are of the conventional type. If however, you see in them fantastic and original pictures, then you belong to a creative type above the average.

For some time, says the Popular Science Monthly, psychologists have been using ink blots in this way to study personality, with some excellent results.

Enthusiastic Over Gas

"What use of wealth so luxurious and delightful as to light your house with gas," wrote Sydney Smith in 1821. "What folly to have a diamond necklace of a Correggio, and not to light your house with gas! The splendor and glory of Lambton hall makes all other houses mean. How pitiful to submit to a farthing candle existence, when science puts such intense gratification within your reach! Dear lady, spend all your fortune in a gas apparatus. Better to eat dry bread by the splendor of gas, than to dine on wild beef with wax candles."

Get Your Job Work Done at the Dispatch

And Get This Label On Your Printing

Health—A Live Subject At Afternoon Teas

It is under such circumstances that experiences are exchanged and women tell one another what treatments have been of most benefit to them.

It is a pretty safe guess that in these tete-a-tetes no medicine is so frequently mentioned as Dr. Chase's Tonic Pills and there is a very good reason why.

Any physician will tell you that most of the ailments which most bother women are due to lowered vitality.

In these days of surgical specialists the operation is too frequently the first thing recommended, whereas, in many cases,

restored vitality would enable nature to restore the natural functions to the deranged organs.

Lowered vitality may come from the strain of irregular hours, loss of rest and sleep, too much excitement or worry.

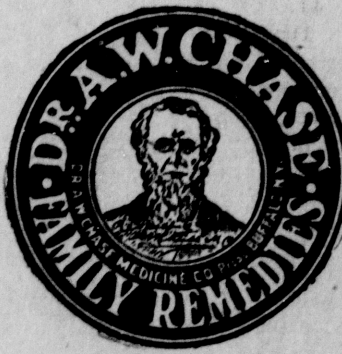

It may also result from lack of proper nourishment, from over-eating or from sedentary habits.

When vitality runs low there is no end to the troubles that may arise and you are an easy prey to colds, pneumonia and all sorts of germ diseases.

Restorative treatment is demanded and because Dr. Chase's Tonic Pills have proven to be the greatest of restoratives of the blood and nerve force is why they are so greatly appreciated by women everywhere.

Put these popular restoratives to the test when you find yourself nervous, irritable and sleepless, or suffer from indigestion, headaches or tired, depressed feelings.

You will soon be convinced of their merits and will realize then why so many thousands of women find a joy in telling their friends of benefits received.

TUESDAY, MAY 18, 1926

THE RECALL ELECTION

BRAINERD will vote on the recall of the mayor June 21, providing some candidate files in opposition to Mayor Cain. The whole question will then be threshed out at that time, which was selected because it is also the date of the regular primary election. Thus the only expense to the city will be the printing of ballots and the extra time devoted by the election officials in counting the ballots, as well as the statement of the petition and the rejoinder of Mayor Cain.

Mayor Cain promised THE DISPATCH a statement as to his position, but so far has given no hint as to the course he intends to pursue. There has been much talk of opposing candidates. Many names have been suggested, but so far no authoritative statement has been received from any one permitting publication in THE DISPATCH.

If Mayor Cain resolves to continue in office, the election will revolve upon his conduct of the office. The vote he receives will be the endorsement of the administration he has given us. A vote for the opposing candidate will be in favor of a different administration.

Great care was exercised by the city clerk, Mrs. E. T. Fleener, in the canvass of the petitions seeking the recall. The names taken were those which had been on the poll lists at the election. This drastic weeding out of names reduced the petition names from close to 1,200 to 870 so-called eligible votes. The votes necessary for a recall election demand 830, thus giving the petition a majority of 40 votes.

HOME PAPER IS THE BEST MEDIUM

THE home town paper is the best medium to use to reach country consumers, H. C. Donaker, Owatonna grocer, told the Minnesota rural editors at the tenth annual short course at the State University Farm, as reported by the Associated Press in a story appearing in the Daily Peoples Press of Owatonna.

"The city daily paper is a wonderful advertising medium, and I believe that the advertising manager gets more than value received for every dollar spent in advertising in the city daily paper, but I claim that the manufacturer that is now using the city daily paper is just starting to advertise, that he is not reaching the real he consumer. I have in mind a town of 7,000 population (probably Owatonna), surrounded by a rich farming and dairy country. Nine rural routes, serving 1,200 farmers run out of this little city and you will be surprised when I tell you that less than 300 copies of all the Twin City dailies combined go into these 1,200 rural homes," said Mr. Donaker.

"The most popular way of advertising is the weekly and monthly magazine, but that is too expensive, and to my mind, the least effective as to reaching the real consumer, but at that I believe the manufacturer that is using the magazine as an advertising medium is getting value received for every dollar spent. I have in mind a high powered weekly magazine, a magazine that is sold on the streets of every city and town in the United States, a magazine that I am told that a single page advertisement in black and white costs \$7,000 for a single issue, or in other words, it costs the advertiser 7 cents for every copy printed. Now the manufacturer that thinks he is reaching the real he consumer by using this high powered magazine, 'He needs new oil in his crank case.' 'He needs his batteries recharged,' and you are going to be surprised when I tell you that out of this same town, with nine rural routes serving 1,200 farmers, less than 20 copies reach the real he consumer, the farmer. Think of it! This high powered magazine reaching less than 1/4 per cent of the real consumers.

"And I would like to say to the manufacturer, to the sales manager, to the advertising manager, that there is a field, a virgin field, untouched by the house to house sample, untouched by the city daily, untouched by the bill board, untouched by the weekly and monthly magazine, and that virgin field can be reached only by the old home town newspaper."

ABANDONING "DEFENSE DAY"

THE St. Cloud Daily Times, under the caption, "Abandoning Defense Day" gives publicity to a timely editorial from an independent paper's standpoint. True, the editor of the Times was mentioned as a candidate for the democratic nomination to the governorship, but the paper's policy is independent. We agree that Defense Day as conducted in the past is no real barometer as to defense data. The argument of the Times follows:

There will be no "defense day" this year. There may not be one next year. It is possible there may be one four years hence, but there is just as great a possibility there may never be another.

"Defense day" will not be observed this year because it was an admitted failure last year. It did not prove to be an accurate estimate of the nation's man power, for the number of participants was far below the number of men of military age. Some men and women took it seriously, but to a great many others it was a holiday or a serious interference with business. Because of the resultant interruption of work, it was unpopular with the farmers and the factories. Pacifists opposed it because they saw in the demonstration a step toward militarism.

In abandoning "defense day" observance the war department was actuated chiefly by the fact that the plan accomplished nothing. It proved nothing. It did not augment the military rolls. After it was over the country knew no more than before as to how many factories were ready to be turned over in the emergency of war to the manufacture of military supplies.

Why is such a demonstration as that of "defense day" essential to the determination of the potential military strength of the nation? The war department has constant access to census records showing the nation's man power, the number and nature of its industries, its transportation facilities and not even a "defense day" could truthfully reflect the state of mind of the public.

WHILE the general trend of building is skyward to overcome the congestion of inside city districts the probable trend in automobile body designs is likely to be in just the opposite direction to accomplish the same result. A lower slung body adds to the compactness of the car, reduces the danger of upsets on inclines and tends to general safety.

Kane Makes The First Arlen Film

Robert T. Kane, the movie producer, last represented on the local screens with "The Reckless Lady" and "Bluebeard's Seven Wives," stands sponsor for "The Dancer of Paris," the first Michael Arlen story to reach the films, currently on view at the Lyceum theatre tonight and Wednesday.

Kane has a way of always presenting interesting stellar combinations in his films. In "Bluebeard's Seven Wives" it was Blanche Sweet, Ben Lyon and Lois Wilson. In "The Reckless Lady" it was Belle Bennett, Lois Moran, James Kirkwood, Lowell Sherman and Ben Lyon. Now in "The Dancer of Paris" he has brought Conway Tearle and Dorothy Mackaill together for the first time.

Tonight's Vaudeville at the New Park Theatre

Tonight's vaudeville bill at the New Park will offer a big variety of vaudeville talent and is the most expensive bill so far offered local theatre goers. The opening number will be Charles & Mayme Butters, man and woman comedy singing and talking act. Miss Mayme closes their act with a whirl-wind jaw spin.

The second act on tonight's pro-

gram will be Mildred Millard. Miss Millard is a young lady with a very pleasing personality and is a splendid entertainer in her line. Her characterizations especially are very exceptional.

The big act on tonight's program is that of a Spanish Jazz Revue consisting of five men and one woman, who will offer some exceptional dancing and instrumental numbers. The dancing team will offer some sensational dance numbers and they carry their own special scenery which is a very elaborate set. This act runs 14 minutes.

Wade & Hale, two men will offer comedy singing and talking act which always goes over big with local theatre goers.

The last number on the program is that of the Mole Brothers, two cyclists. This team does some very clever bicycle riding and the comedy injected into their act puts their act over with a bang.

The feature for tonight is Eileen Percy in "The Shadow on the Wall."

Glazing Furs

Furs are glazed by dipping a soft brush in cold water and brushing in the way of the fur. Allow to dry without handling.

"Wolf, Wolf"

Jud Tunkins says it's possible for a man to get such a reputation for mendacity that you're almost afraid he'll have a kind word for you.—Washington Star

Political Announcement

I wish to announce that I will be a candidate at the primary election to be held June 21st, 1926, for the office of County Commissioner for the fourth commissioners' district of Crow Wing county, Minn.

I have been a resident and taxpayer of the county for over 25 years and have always been much interested in county matters.

I am not at present employed by any one, nor drawing pay from any individual, company or corporation. There is nothing I know of to prevent me giving my entire time to the performance of the duties of the office, should you see fit to nominate and elect me to it.

Your support is asked for and will be greatly appreciated.

Yours for business,
L. W. TYRRELL.

BRAINERD MEN CONTINUE VOCATIONAL GUIDANCE TALKS AT HIGH SCHOOL

Enlighten Students on Conditions in the Various Vocations

ERNEST ROTH

Tuesday morning following Mr. Robinson's talk on forestry, Mr. Ernest Roth, County Agricultural Agent, gave a short but impressive talk on agriculture. Agriculture, Mr. Roth stated, is the basic industry and for this reason, if not for any other, we should all be interested in it. Owing to the fact that agriculture has so many branches and because of lack of time Mr. Roth gave only a general discussion of all the branches. The most efficient farmer is the one who has had considerable special education in the field of agriculture. This training can be obtained in practically any state university and in colleges. The greatest advantage of being a farmer is that a farmer is independent and can develop his farm to almost any extent, according to his own ability. No special qualities are necessary for farming but a lazy man very seldom makes a successful farmer. A person has a chance to build up his physique as farming is probably the healthiest occupation any one can enter.

DR. GEORGE RIBBEL

Dr. George Ribbel, of Brainerd, presented the subject of dentistry on Thursday morning, from 8:30 to 9. He gave as the various branches of dentistry the operative, orthodontia, oral surgery, thelerodochia, and prosthesis phases, including them all in a general survey of the profession. In explaining the many duties of a dentist, Dr. Ribbel emphasized the fact that a dentist must have certain character qualities—honesty, consideration for the welfare of his patients, clean habits, a mechanical trend of mind, the desire to work with the hands and, above all, a love for the work itself rather than its possible gains—to be successful in his work.

Dr. Ribbel is of the opinion that a student is capable of working his way through school, thus meeting financial needs, especially a heavy tuition fee. The University of Minnesota offers one of the best courses in the United States and is preferred to the smaller schools of dentistry. The tuition fee for resident students is \$60 for a quarter, non-residents about \$70 and the tools, instruments and books necessary for such a course cost about \$400 for the entire course.

Two courses are offered in the University of Minnesota: the first a five-year course consisting of one year in academic work and four years in preparative study. The second includes three years of academic work and four years of study leading to a B. A. degree as well as a D. D. S. The present tendency is toward a course leading to the degrees of M. D. and D. D. S.

The field is open to girls who wish to become graduate dental nurses, specializing in such branches as child dentistry, and prophylactic treatment work. Two years of a University course are necessary, costing in all about \$25 per quarter in tuition fees and \$60 for books and instruments for the entire course.

The minimum amount of money usually needed to set up in independent practice is \$2,000.

Dr. Ribbel gave as the disadvantages of the profession the confining nature of the work, and the contact with the unhealthy.

MISS REBECCA CASSELL

Miss Rebecca Cassell's talk on social service work Wednesday, 8:30 to 9, was well attended and the subject discussed thoroughly from every possible point of view.

Miss Cassell divided social work into four groups—individual, charity—institutional group, and research work, explaining that the first demanded the greatest personal interest, tact, and real understanding of humanity. The first, based upon family case work, includes the care of destitute families, personal hygiene and community welfare work; the second deals with such charitable institutions as the homes for the blind, feeble-minded, tuberculosis patients, sanatoriums for disabled war veterans, and the placing of orphans in reliable homes or institutions. The third embraces almost completely the branches of the first two and has among its workers the Y. M. C. A., Y. W. C. A., Boy and Girl Scouts and teachers of trades in hospitals for disabled veterans, thus enabling them to be self-supporting.

The fourth, research work, is the diagnosing and recording of cases for permanent records. Miss Cassell maintains that a social service worker must have tact, the ability to meet people on their own ground, human understanding so as to leave a friendly impression, presence of mind in emergencies, and

a faith in mankind sufficient to overcome the disadvantages and disagreeable parts of the daily work.

Education necessary for the work includes a high school course, special training in social work, or a university course in sociology, a year's work with a welfare association, and if a girl intends to become a public health nurse, a short course in nursing is necessary.

The salary of social service workers is not very large, ranging from sixty to one hundred and seventy-five dollars a month, but one receives full compensation in the good that one does for mankind. There is also a chance for advancement in this field.

MR. SCHAUMBERG

An enthusiastic crowd attended Mr. Schaumberg's talk on chemistry given at 8:30 Friday morning.

Mr. Schaumberg first defined science as the investigation of truth and the foundation of pure knowledge of the natural forces which underlie all human progress. Since chemistry influences every phase of life it is one of the most interesting fields anyone can enter.

The chemists are divided into three major groups: the first, chemists engaged in finding new knowledge and new truth; second, chemists concerned with developing the existing institutions; such as agriculture and medicine; and third, chemists who make public the knowledge through teaching. All of the branches have specialists.

At present there are about twenty-two thousands recognized chemists in the country with the United States employing one thousand in her printing offices, mines, mills, department of agriculture, department of war and department of the navy.

A college education is necessary to become a chemist and along with chemistry work a reading knowledge of French and German is required. It is wise to take every available branch of chemistry, so a course in biology, physics and mathematics are beneficial. A young chemist usually begins as an assistant of an experienced chemist. This work includes caring for the working apparatus, etc. When one begins research work a doctor's degree is almost necessary for real excellence. Most large concerns, such as flour mills and factories of various sorts, have their own chemists. These chemists occupy a very important position in the factory, so their wages are high or they have a drawing account on the firm, thus putting no limit to their income. Most young chemists begin with one hundred twenty-five dollars and up.

A person must have patience, accuracy, mental alertness, must be neat, and must not be afraid of work in order to become a first-class chemist. A chemist is practically independent, is his own boss, and is the only one who knows a great deal about his experiments and work.

Mr. Schaumberg expressed his regret that so few of the upper classmen of B. H. S. are taking chemistry and feels that it should be of interest to us all.

MR. ROY THOMPSON

Mr. Thompson, ranger at large of Minnesota, gave a vocational guidance talk on forestry Tuesday morning from 8:30 to 9 in the main assembly. The topic was presented in three divisions: first, forest ranging (frees emphasized); second, commercial forestry; and third, by-products of the forest. Special note was given to the fact that most of the work of a forest ranger is extinguishing and preventing forest fires. The rest of the time is spent in surveying and estimating the value of government timber land. The commercial side of forestry, Mr. Thompson stated, is the most profitable of all branches. This division includes lumbering, paper and artificial silk manufacturing. A man usually enters the business "on his own"; therefore possibilities of advancement have no limit. The third division, the manufacture of by-products, is the most interesting. This includes the making of turpentine, dyes, rosin, etc. Mr. Thompson made clear that a special course in college is the most desirable for preparation in the forestry field. In order to be successful in forestry one must love nature and outdoor life, must be content with small wages at the beginning of his career, and must have a strong physique. The wages of a ranger are quite low at the beginning but advancement is possible. The maximum wage for a ranger is from two hundred to two hundred and fifty dollars monthly. In the other divisions, commercial forestry and by-products of the forests, the annual income may range from a low to a

very high sum, this, of course, depending upon the ability of the individual. Mr. Thompson brought out the fact that the field of forestry was open to young women as well as young men and that Minnesota now employs three girls to spot fires from towers.

ATHLETICS

BRAINERD 11, AITKIN 10

Brainerd won a slugging match from Aitkin last Friday on the local diamond, 11 to 10. It was not the hitting power of the Aitkin team that gave them ten runs but the errors of the Brainerd infield. Four consecutive errors in the infield gave four men a chance to cross the plate.

Van Walk started on the mound for Brainerd but was relieved by Avery in the fifth inning, at which time the score was 8 to 1 in favor of Aitkin. A rally in the fifth inning netted 5 runs for Brainerd, and made the score 8 to 6. In the sixth inning neither team scored, but in the seventh another rally for Brainerd that brought the fans to their feet, made the score 10 to 10 after Aitkin had scored two more runs in their half of the inning. In the following inning, with two men out Fitzharris singled, stole second and then third, and came home on an overthrow to third. This was the winning run.

To date Brainerd has won two games and lost one, but stands a good chance to win the game Friday with Staples there.

The following is the summary of the game Friday:

Brainerd	Ab	H	R
Marshall	5	0	1
Wise	5	1	0
Hanson	5	0	0

Aesop's Fables

by Aesop

'Honesty'

Jerry Anderson had been absent for many moons from his classes but on the appearance of the fourth moon Jerry was back, brighter and earlier than ever before. His cheery face was everywhere helping and encouraging anyone who wished to be helped or encouraged. Just before his classes would begin he went into the office to see Miss Tornstrom and tell her a new one. Miss Tornstrom catching the contagious exuberance of youth which surrounded him like a halo, smilingly inquired, "You have been sick, Jerry? Scarlet fever?"

"No, Miss Tornstrom, I've turned over a new leaf."

"Another one?"

"Yes, another one, but I mean to stick to this one until—well, until I have to turn over still another one."

"Well, Jerry, let's hear it."

"I'm going to work, really work the rest of the year and not bluff; just to begin with I'll tell you why I was out—the other night as I sat in my room doing the morrow's geometry, my mind raised from the levels of segments, proportions, and angles and seized upon the idea I have outlined to you; it seemed unreasonable at first—I couldn't possibly do it—habit was too strong in me, but the thought wouldn't leave me; I would catch myself thinking of it every now and then, and well I've been thinking of it ever since."

There followed a long silence broken only by the ringing of the telephone and the tramp of feet as the first period classes passed thru the hall. Yes, it was even longer than that.

Then Miss Tornstrom spoke: "Gerald, I believe that you mean every word you have said,—you will carry this thing out this time,—and I'll help you. Here's your pass."

And she handed it to him. "But don't forget to remember, Gerald!"

He glanced at the pass. It was marked satisfactory. "Yes, Ma'am," he remarked as he withdrew, still smiling.

Moral: Always tell your teacher.

RUTTGER'S IS AGAIN HOST FOR THE JUNIOR-SENIOR BANQUET

Who? What? Where?

Miss Cederstrand is back after an extended absence, due to having her tonsils removed. She drove down in her car.

Miss Van Beek is thinking of going out for the bicycle race, if there is one, at the track meet at Little Falls.

Bob White has a new motorcycle.

Miss Hall and Miss Bowers are getting to be regular tennis sharks. Come on, the rest of you fellows, where're your knickers?

Have you noticed that poster in the hall, announcing the track meet of the 11th district at Little Falls, May 22nd?

Miss Lohr's classes were sadly interrupted the other day, by the arrival of a ball through the closed window. Luckily, no casualty happened.

They've ended the world war in Modern History.

No doubt Don Marshall took his girl to the Junior-Senior banquet on his motorcycle. There was a pillow for her when she got out there, Don.

THE BURGER COLUMN

Philosophy

1. A teachers "absence," often makes the heart grow fonder.
2. Hitch your wagon to a star. It's a water wagon, drive it along the milky way and tie the wagon to the big dipper.
3. To flunk is human; to pass is divine.
4. 'Tis better to have loved a short man that never to have loved a tall.
5. A pretty face always covers a multitude of poor recitations.
6. If a student is thin, he studies too much.
7. If a student is fat, he is lazy.
8. If a student is medium, he has no individuality. What do?
9. The doors of opportunity are marked both "push" and "pull."
10. Opportunity knocks but once,—on the door, not on the head.

the truth—unless you know something better.

Modesty

The gym was crowded with people, in fact it was even more than that, it was packed to the ceiling with a howling yelling, frantic mob of basketball fans who had just a couple of minutes before witnessed the victory of Brainerd over Little Falls in the last minute of play when Brainerd had dropped in a basket so as to make the score read Brainerd 25, Little Falls 24.

"Cheer the team, guys! cheer the team!"

"Where's somebody to lead the cheer?"

"Kay Nolan!"

"Show 'em how Kay!"

"Oh Nola—n!"

But they couldn't find Kay, she wasn't there.

After the gym had cleared and Mr. Swanson was looking up he found her white-faced and looking like she had seen the original headless rider, crutching behind the door in Miss Huntley's room where she had hidden when somebody suggested her leading the cheer.

And Mr. Swanson asked her: "Why didn't you lead the cheer to-night?"

And Kay replies: "I couldn't get out in front of all those people—I was too S-s-scared!"

Moral: there ain't no moral to this—ne just stretch your imagination and think of Kay,—that way!

Miss O'Brien: (in gym class) "Now girls throw your heads off to one side."

Teacher: "Tell about the north Pole, Jimmie."

Jimmie: "Oh it's 16 ft. high."

Teacher: "What about the climate?"

Jimmie: "Oh the Eskimos climb it."

Miss Erstad: (in Commercial Geog.) "Name some products made from corn."

I. T.: "Corn sirup, corn sugar, corn starch and a—"

Miss E.: "Can't you think of more than that?"

Distracted Freshie: "And—a and a corn cure, Freezezone, it raises them right out."

Teacher: "Name some other minerals besides copper."

Bright pupil: "Phosphorous, calcium and carbon."

From is One of the Most Enjoyable in Years

At five o'clock Saturday, May 15th the grounds at Brainerd high were covered with Juniors and Seniors anxious for the cars to arrive and carry them to the party at Rutger's Resort.

By six-thirty about a hundred and sixty-five Juniors, Seniors and members of the faculty had been transported into a beautifully decorated dining room. The room was decorated in purple and gold, the senior class colors. Gold baskets with purple sweet peas and gold candle sticks holding purple candles adorned the tables.

Kenneth Olthoff was first to be called upon and gave a toast for the Seniors and a few words of advice to the Juniors. This was answered by Raymond Anderson, the Junior class treasurer. A solo was then given by Bernice Samuelson, accompanied by Miss Rickard. Helen Paine gave a very clever reading which caused the crowd to demand another and again another which was a solo entitled "My Ford." (Helen needed no accompanist). Miss Tornstrom and Professor Cobb also gave talks which gave advice to the classes and showed their appreciation to the classes for carrying on the affair so uniformly and orderly. Dorothy Deering gave a reading which served as a toast to each individual Senior.

After the last course Mr. Berestford led community and class songs which Miss Drexler played. All partook in the singing which afforded more amusement, or at least as much amusement, as had the balloons which were now all broken.

About eleven o'clock the happy, tired party came to a close. It had been a perfect day. The weather was ideal, very much to the opposite of last year, when they had snow, the 30th of May, the day of the prom. The prom was over and had been a success but the Juniors regretted the fact that it was the last opportunity they had to entertain the worthy Seniors and Seniors were sorrowful to think of it as a farewell party. The Seniors are to entertain the Juniors May 26th by giving a picnic; this will end the social activities of the Senior class of 1926.

WANT ADS

A new way to attract attention. No old methods will do. Have tried them all. Address—Helen Templeton.

A way to get square with the faculty. Address—Thomas Brown. A well-built fellow to wear my cast off clothing. Address—Herman Buscher.

An experienced carpenter with a good memory to reconstruct the scenery for the spectacular revival of the old story—"Ten Nights in a Bar Room." Semper Paratus club. A large iron band to fit my head. Address—Jim Koop.

When Willie took to Chemistry. I took to the tallest tree. For in explosive he was fond of dealing.

That's Willie there upon the ceiling.

Little gobs of powder. Little daubs of paint. Make the little freckles. Look as if they ain't.

Some men are born to greatness (By Fitz)

With luck their lives begin; And some achieve distinction (Billy Johnstone)

While others just "butt in." (Thomas Brown)

Definitions

Athlete: a dignified bunch of muscle, intended to split wood (but don't).

Blue: the only color we can feel. Kale: a vegetable (like spinach), but more commonly what we buy pencils with.

Here's to the jigger who isn't bigger. Than the point of an ordinary pin. But the bump that he raises hurts like blazes.

Here's where the scratch comes in.

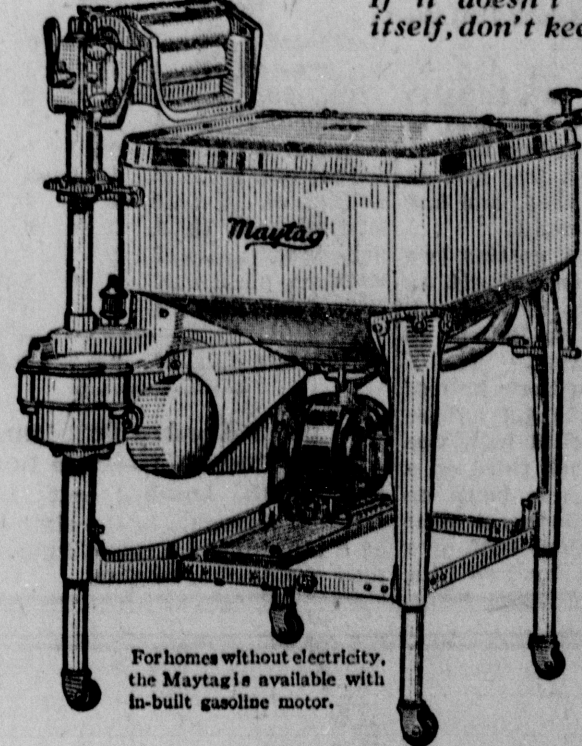

We see Carl P. riding to school on a motorcycle nowadays. It is an Indian and is smaller than any of the rest of them, so the boys have named it "Papoose," which is rather clever, don'tcha know.

Get a New Idea of Washday—try the MAYTAG

LET the Maytag do a week's washing for you—free. See how much easier washday is when you don't hand-rub a thing—not even collars, cuffs, wristbands. See how much quicker washday passes when tubfuls are washed in 3 to 7 minutes, and whole washings—50 pounds of dry clothes—are ready for the line in one quick hour.

Why continue to make washday hard work when the Maytag will make it so much easier? Phone us now—there is no obligation or expense to know easier washdays through the Maytag.

If it doesn't sell itself, don't keep it

For homes without electricity, the Maytag is available with in-built gasoline motor.

UNION PACIFIC

CITY LEAGUE BASEBALL IS INAUGURATED

Y. M. C. A. CHAMPS TAKE FIRST GAME FROM N. E. 10-9

**DARLEN HURLS FINE BALL AND
STRIKES OUT 6 IN 5
INNINGS**

**LAST INNING WEIRD, Y. GETTING
7 RUNS, N. E. COUNT-
ING 6**

**Game Tonight
B. A. C. vs. Seals**

The Y. M. C. A., champions of last year, won the opener of the city baseball season with a win over the strong Northeast team, by a score of 10 to 9. The game was called at the end of the sixth inning because of darkness, it being so dark that the ball was lost in shadows.

Dahlen, new pitcher for the Y. team, stamped himself as a fine slab artist, striking out the last man in three innings, once with two men on bases. He allowed but five hits in the five innings he worked, and had six strikeouts to his credit.

Northeast scored first, getting two in the opening frame, on a single, an error and a two-bagger, by Howard. A double play, Dillan to Bollens to Hanson, ended the inning. The Y. came back with one in their half of the second, when Sheffo got a base by being hit by a pitched ball, was sacrificed by Dillan, took third on a pitcher's error, and came home on an outfielder's error. Northeast came back with another in their half, on a hit batsman, followed by two hits,

by Schwindeman and A. Swanson. The Y. tied the count in the fifth, with a hit batsman, two errors and a sacrifice fly.

The last inning was a hectic affair the Y. getting seven runs in their half, by grace of six errors, two hit batsmen, a walk and two two-baggers. In the Northeast half, they made six runs on three errors, two walks and three hits.

The opening of the game was auspicious, with Mayo, Cain hurling the first ball square over the plate to Anderson, who failed to touch it, thereby getting his first strike.

Jersey City, N. J.—Dixie Dixon of Fort Worth, knocked out Mickey Dunn of Bayonne, in the sixth round of a scheduled 10 round fight. The men are featherweights.

LOCALS AGAIN DEFEATED BY A CLOSE SCORE

**7 TO 6 IS FATAL SCORE, BRAIN-
ERD FAILS TO GET
BREAKS**

**BRAINERD PLAYED TOP-NOTCH
BALL, DESERVING TO
WIN**

New York Mills nosed out a victory over the Brainerd N. P. City team yesterday afternoon at New York Mills by the score of 7 to 6. Again the local team failed to get the breaks. Their playing was top-notch but still something stopped them from getting in the lead.

The Brainerd infield played almost a perfect game, Ware being the only man accounted with an error and that was for interference. Ware stopped two runs at the plate and tagged two between third and home, besides stopping everything that came his way. "Shorty" Uddenberg was a stone-wall defense and nothing passed him. All his throws to the first bag were perfect. Nason was on second and also invincible, assisting in the only double play of the game, besides getting two two-baggers and bringing in two runs. Nothing got by Hanson at first. Both Schwindeman and Norman did splendid work behind the plate, only two men being lucky enough to steal second. Posten pitched his first game of the season and got better each inning as the game progressed. The outfield consisting of Abbott, Peter-

son and Ringer, who went in for Nutting in the sixth, played errorless ball.

A large crowd witnessed the game at the Mills and saw all their salaries men nose out Brainerd by one of the breaks of the game in the last half of the ninth inning.

Brainerd with the present line-up ought to finish with a high percentage this season for with a little more practice, especially in stick work, they are going to present a most formidable aggregation. The management should lay particular stress on the batting practice which is the team's bulwark of offense. The quicker the men get their batting eye, the better. Nutting is the only man who has batted over .300 in the last two games.

Sebek plays at Brainerd on May 23.

The score by innings follows:

Brainerd	020	000	400—6	8	2
N. Y. Mills	311	000	101—7	12	3

REYNOLDS AND LEADS

MICHIGAN LEADS BIG 10 CONFERENCE BASEBALL RACE

Chicago, May 18.—(UP)—Michigan is leading the Big Ten conference baseball title race, according to tabulations today. Wisconsin, as a result of its win over Illinois yesterday, is running second. The standings:

Team	W.	L.	Pct.
Michigan	7	1	.875
Wisconsin	5	2	.714
Illinois	5	3	.634
Purdue	5	4	.556
Northwestern	4	4	.500
Ohio State	3	3	.500
Chicago	3	3	.500
Minnesota	2	3	.400
Indiana	1	5	.167
Iowa	0	7	.000

MARCONY LOSES TO KETONEN

**IS DEFEATED IN TWO STRAIGHT
FALLS BY THE CLEVER
FINLANDER**

Tony Marcony again last night was forced to let sportsmanship be his only remuneration on the wrestling card at Gardner's Hall when he met and lost to Waino Ketonen, Finlander title holder in the middle-weight class.

About one hundred fans witnessed the match and on account of the poor house, the preliminaries were dropped, the men who were carded for these events refusing to go on without pay.

However, Marcony and Ketonen showed plenty of sporting blood and went to the mat to give the fans their money's worth which, it appeared, they succeeded in doing, if one were to judge by the applause accorded both men.

Ketonen took the first fall in 33 minutes with a leg-spread, a hold new to the fans and one which takes much cleverness to clamp on an opponent, but it must be said Waino showed that he was clever and then some, although he needed all his ability to stop the Greek.

Marcony conceded the second fall in sixteen and one-half minutes when Ketonen applied a head lock and arm scissors, forcing his opponent to say "Nuff."

A sportsman to the end, Marcony offered his hand and acknowledged Ketonen was the better man and was worthy to be called champion.

Additional Sports on Page 8

The suit he wanted was \$60

and he only wished to pay \$38.

The shirts he liked were \$5 each while the voice from his pocket could only reach \$3.

The underwear was too expensive—the straws were over his head—the neckwear too rich for his blood. *He was in the wrong store.*

He came to the John M. Bye Clothing Co. where everything he liked in pattern—liked him in price.

We have a few specials in Shirts at **\$1.35**. Values up to \$3.00.

**Nobody
can
laugh this off**

PRINCE ALBERT has been such a revelation to men who *thought* that they were pipe-happy that *three* pipes are smoked today where *one* was smoked before. That's a fact, Men, just as sure as little bees buzz and polliwogs have tails.

And you don't need a degree from Oxford to figure out the reason: The Prince Albert process cuts out bite and parch pos-i-tive-ly and Prince Albert quality makes it the National Joy Smoke. That means you can cram this fine old favorite into the bowl of your jimmy-pipe and turn on all five tubes . . . go to

it any way you please . . . slow or fast, morning to midnight!

Yes, sir! P. A. is the taste-teasingest, tongue-pleasingest tobacco that ever tumbled into a briar. Its smoke is the coolest that ever sifted into your system. Its fragrance keeps honeysuckle and your favorite rose fighting for second place.

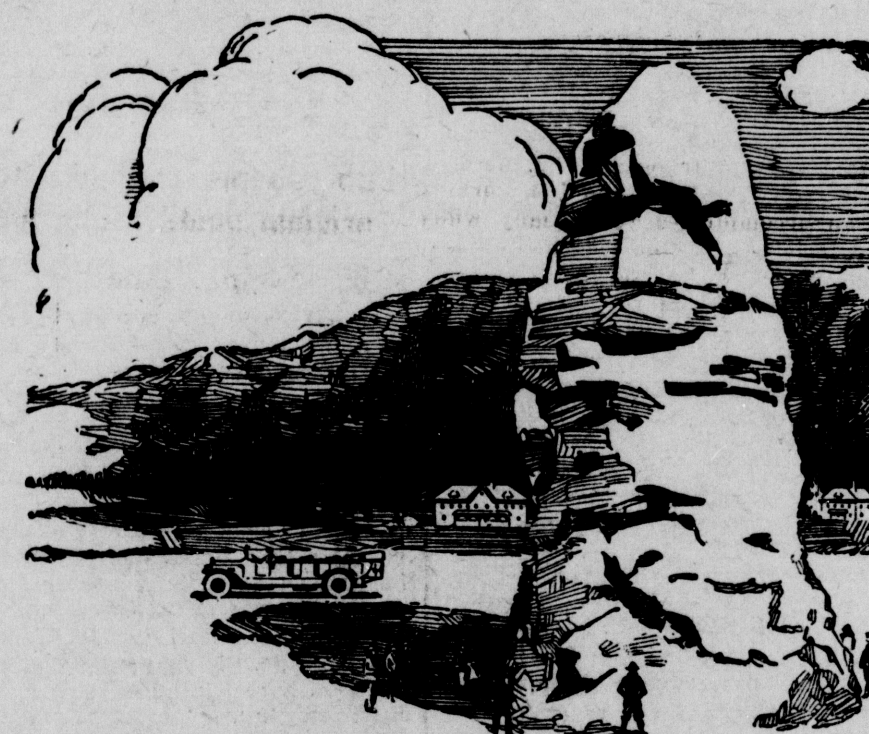

Put it on your pad now: You've got a date this very day with the smoke-shop that hands out P. A. sunshine in tidy red tins. Decorate yourself with the degree of P. A., and get the *highest* degree of pleasure out of that old pipe.

P. A. is sold everywhere in tidy red tins, pound and half-pound tin humidors, and pound crystal-glass humidors with sponge-moistener top. And always with every bit of bite and parch removed by the Prince Albert process.

PRINCE ALBERT

—no other tobacco is like it!

Play in Your Own Playground! Yellowstone Park

Yellowstone is yours. With dozens of mighty geysers, hot springs, rainbow terraces, petrified groves, breath-taking canyons, waterfalls, wild animals of the forest and mountain!

Here is one of the most varied and beautiful wildernesses in the world. It belongs to you. The government has set it aside for you to enjoy.

You have Alpine flower gardens in "The Park", unexcelled in range, color and variety.

You have wild animal friends—elk, deer, buffalo, mountain sheep, bear and moose, fearless, calmly indifferent, or frankly interested.

You have good fishing in your Park. All the waters of Yellowstone are trout waters and some of them, the best in the country.

You have bewildering beauty. The geysers, the snowy peaks, the rainbow terraces—and the glorious Grand Canyon of the Yellowstone!

Play in your own vast playground this summer, where the Rockies are "as they were in the Beginning". It will be the happiest vacation you ever enjoyed.

P.S. If you want any information about Yellowstone, I am at your service.

NAMES OF FILERS OF PETITIONS

Ten Citizens Secured Names Asking
For Recall of the
Mayor

CARRIED TOTAL OF 1,200 NAMES

Those Seeking Election of Another
Mayor Have up Till 15 Days
Before Election

Ten petitions circulated by ten citizens asking for the recall of Mayor George A. Cain and the holding of the election which will take place on June 21, which have been filed with City Clerk Mrs. E. T. Fleener, form the body of the some 1,200 names signed, of which 870 names were eligible.

The following filed petitions with Mrs. Fleener: Archie Sylvester, Louis Hanson, Edward Wallace, E. J. Whiting, H. D. Anderson, W. J. Hall, W. F. Schwendeman, Vincent Torba, W. Gray.

Those seeking the election of another mayor have up till 15 days from the election to submit their candidate or candidates. As yet no candidates have been filed at the office of the city clerk.

Olson-Cowling

Carl J. Olson and Miss Emma F. Cowling were united in marriage Sunday afternoon at 2 o'clock at the Norwegian-Danish Lutheran church, Rev. O. L. Bolstad officiated, using the ring service. Miss Christine Huseby acted as bridesmaid and Melvin Huseby as best man.

The bride was attired in a beautiful gown of white senorita satin and carried a bouquet of pink bridal roses. The bridesmaid wore a gown of tea rose canton crepe and carried a bouquet of white carnations.

Following the pleasing ceremony at the church, a three course wedding dinner was served to immediate friends and relatives at the home of Mr. and Mrs. Charles Jernberg, 1520 Pine street Southeast. Mrs. Jernberg is a sister of the groom.

Both contracting parties are well known locally. The groom is a son of Mr. and Mrs. O. C. Olson and is a highly respected young man, having been born and raised in Nokay Lake township. He is active in all community affairs and enjoys a very large circle of friends in the neighborhood where he resides. The bride is an accomplished young lady who for some years followed the profession of teaching in the rural schools. She is a daughter of Mr. and Mrs. George Cowling of Deerwood and has a host of friends throughout the county.

The happy couple left on a short honeymoon trip after which they will be at home to their many friends on Mr. Olson's farm east of Brainerd. Their friends unite in wishing them prosperity and happiness in their married life.

TYPOGRAPHICAL UNION

Elects Wm. Demmers President of the Local Organization

The Brainerd Typographical Union No. 593 at its last meeting held its annual election at which the following officers were chosen:

President—Wm. Demmers.
Vice President—Floyd A. Thompson.

Secretary-Treasurer—Albert O. Anderson.

Sergeant at arms—Al. E. Broman.
Delegates to Trades & Labor Assembly—Wm. Demmers and Frank G. Hall.

MILLE LACS LAKE POPULAR

Approximately 10,000 Fished, Utilizing Every Boat on The Lake

In all of Minnesota's 10,000 lakes, Mille Lacs lake in this district proved the most popular with fishermen over the week end and the opening days of the pike season for Minnesota.

Approximately 10,000 people fished in Mille Lacs lake Sunday and the estimate of the number of fish caught is almost the same.

The lake was dotted as far as the

eye could see with fishing boats. A steady stream of fishermen from the cities kept pouring into Midland for the opening of the season.

The advantages of fishing pike in Mille Lacs lake at this time of the season is responsible for the large number of fishermen, it being stated that the water there being not as deep as in other lakes and consequently the water would not be as cold.

Everywhere, everybody is talking fishing, of the good catches made, of the disappointments of losing "wallopers."

Card of Thanks

We wish to express our heartfelt thanks to relatives, neighbors and friends for the kindest sympathy and beautiful floral offerings during our sad bereavement of the loss of our dear husband and father, we also wish to thank Rev. H. P. Damon and the ladies of the Baptist church for the consoling words and music at the burial.

MRS. W. P. HOPPS,
and family.
MRS. M. P. MEYERS.
MRS. R. B. HAMILTON.

EYES CENTER ON PIRATES AND ATHLETICS

PITTSBURGH CLAN FALLS HEIR TO ADEQUATE PITCHING

ATHLETICS PLUGGING BEHIND YANKEES AND SENATORS

By PAUL W. WHITE
(United Press Staff Correspondent)
New York, May 18.—The rise of the Pittsburgh Pirates and the Philadelphia Athletics, after a disappointing start, is one of the features of the baseball season's second month. The Pirates, once more getting adequate pitching, although they have as yet to display anywhere near their accustomed form, are in fourth place in the National league and are five games behind the league leading Cincinnati team with a .500 percentage.

The nerve-racking games with the second place Brooklynites tested the mettle of the world's champions. In one the Pirates held the Robins to a tie, and yesterday came through with a 7 to 6 victory in a 12 inning encounter. The early part of the season saw the Pirates losing those close ones.

Probably the choice of a majority of guessers before the season opened, the Athletics are plugging away behind the Yankees and Senators, with but 3 games separating them from a tie for the lead. With Lefty Groves and Jack Quinn pitching superbly and with the early batting slump virtually eradicated, the Athletics can be counted on to furnish worthy opposition.

If the Mackmen and Senators are to prosper, however, some way must be found to dispose of the Yankees, who are sticking on top as if they expected to remain there. Yesterday, although outlived 10 to 8, they won their sixth straight by conquering the White Sox, 5 to 3. The Yankees have had the valuable knack of hitting heavily when necessary.

This is the first May 18, in many years, that has found the Giants out of the first division. McGraw's men are floundering in sixth place despite drastic shakeups. The latest players to go are Catcher Grover Hartley and Pitcher John Wisner.

Hartley was sold outright to Indianapolis and Wisner was sent there on option. In return the Giants will get Catcher Paul Florence.

19,000 FANS SEE NEW YORK FIGHT CARD

New York, May 18.—(UP)—Nineteen thousand fans, one of the largest crowds in the history of indoor boxing, looked on at the Garden last

night at a strong card, arranged for the benefit of the Catholic Big Sisters fund.

In the headline bout Stanislaus Loyaza, Chilean, and Philly McGraw, Detroit, lightweight, battled to a 10 round draw. The same decision was given in the semi-final between Willie Harmon, local veteran, and Jack Zivic, of Pittsburgh.

Bushy Graham won the decision over Frankie Genaro in a 10 round go.

Watching the Scoreboard

Yesterday's Hero—Paul Warner, whose triple in the 12th paved the way to the Pirates' 7 to 6 victory over Brooklyn.

The Giants rallied in the eighth and made four runs, defeating Cincinnati 7 to 4.

The Yankees hit at crucial moments to beat the White Sox 5 to 3.

After the first inning the Athletics were held scoreless but the damage had been done and they beat Detroit, 5 to 1.

Nineteen hits off three Washington pitchers gave the Indians a 12 to 5 victory.

The Cubs rallied in the ninth and beat the Phillies 7 to 6, putting them in a tie for second place.

The Cardinals won their sixth straight victory by vanquishing the Braves, 8 to 5. Bottomley, St. Louis first sacker, hit his seventh home run of the season.

Pounding six Toledo pitchers for 10 hits the Senators won their sixth victory of the season from the Hens, 8 to 5.

Although outlived the Indians took advantage of every opportunity and downed the leading Colonels 7 to 4.

One big inning, the third, with seven runs, enabled the Saints to beat the Millers, 8 to 2.

Milwaukee outlived the Kaws, but the latter bunched their hits better and won 6 to 5.

AMERICAN AMATEUR GOLFERS DEFEATED

Woking, England, May 18.—(UP)—American amateur golfers were badly defeated in five foursome matches with members of the Moles Cricket and Golf club in the morning round today. The British players won all five matches.

Robert Harris and Major Hezlet defeated Bobby Jones and Jess Sweetser 4 and 3.

T. A. Torrance and J. D. Beck defeated Francis Outmet and Watts Gunn 3 and 1.

W. A. Powell and W. A. Murray defeated Roland Mackenzie and George Brownell 4 and 3.

F. L. Fairlie and G. D. Roberts defeated C. G. Waldo and J. D. Stanish, Jr., 5 and 4.

Five more 18 hole foursome matches will be played this afternoon.

LIVESTOCK, PRODUCE GRAIN AND BONDS

GENERAL MARKET FIRM

New York, May 18.—The general market displayed a much firmer tone today throughout the session and while there were periods of sporadic selling directed against the motors and others the list held well and showed ability to rally from depressing waves. The latter, however, were not anywhere near as intense as in previous sessions indicating that the bearish element was less confident.

Foreign exchanges had another weak day, notably French and Belgian francs both of which made new lows. The oil shares proved to be the most active and practically the only group in which aggressive buying was evident.
